

Technical Data Longline with Conductor

- Work load limit 1,000 kg – 5,000 kg
- Safety factor of 8
- Available lengths on request
- Conductor 4 x 1.5 mm² (AWG 16)
- Life expectancy 6 years
- Protective sheath:
 - Standard: PES multifil red / white
 - Logging: PA monofil red
- High-quality Dyneema core
- Thimble on helicopter side
- Cone on the lower end
- Meets the highest safety standards
- Meets the requirements of directive 2006/42/EG
- CE-Compliant
- Design meets the requirements of Certification Standards CS.27/CS.29 for Rotorcraft by EASA
